

Parents as career coaches

Youth in Transition

Join us and explore the future!

As part of the JCC Parent Education programming, we offer you our 8 week experiential program providing useful and accessible information to families and youth ages 15 to 18 as they transition from high school to adulthood.

Week 3 - Monday May 4

6:30-8:30pm

Most parents tell us that the transition years are the hardest time for managing their money and their youths budgets. Many questions come up for both parents and youth.

How will your youth successfully take on more ownership of their funds? Should they take on a student loan? How will they learn how to budget? How will you afford their higher education? How best to plan for their futures and save for yours?

Come by yourself or with your teen! In these 2 hours you and your teen, in a separate room, will explore money, investment, student loans, budgeting, RDSP's and legal and estate planning.

Facilitated by

Grada Lynne Johnson, RBC Financial Planner, Investment and Retirement Planning and **Richard Bell** from Bell, specializing in estate planning, wills, representation agreements and trusts.

Refreshments provided by Bagel Club Catering
