

## 2013 Adult Education Series

### Promoting Life-Long Learning and Health

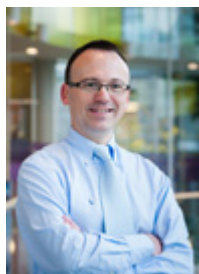

*Students, Parents and Community Members Welcome*

**Thursday, October 17th 7:30pm**

**Dr Brian Bressler - Inflammatory Bowel Disease:**

**What is it? What can we do about it?**

Clinical Assistant Professor of Medicine, University of British Columbia's Department of Medicine, Division of Gastroenterology. Recognized expert in inflammatory bowel disease.

**Tuesday, October 29th 7:30pm**

**Dr Ran Goldman - Searching the Web for Medical Information:  
Google, Yahoo & making informed decisions about your child's health**

Senior Associate Clinician Scientist, CFRI Professor, Division of Emergency Medicine, Department of Pediatrics, University of British Columbia (UBC) Innovations in Acute Care & Technology.

**Thursday, November 21st 7:30pm**

**Terry Small – Engaging the Brain**

Canada's #1 learning expert. Master teacher and learning skills specialist. Frequent lecturer at Simon Fraser University and the University of British Columbia. This talk follows Terry's much-anticipated interactive presentation to staff and students at King David in October.

This program is generously sponsored by the Mermelstein 5-Sisters Fund.

Events take place at King David High School.
