

Have your opinions on vaccinations changed since you became a parent?

We are looking for:

Parents with children ages 6-12 whose thoughts and feelings about vaccinations have changed since first becoming a parent.

What the study involves:

Interviews will take place in a private place and participants will receive a \$25 gift card as a thank-you.

Why we are doing the study:

Researchers at the University of British Columbia are interested in learning about the ways parents' opinions and concerns about childhood vaccinations (shots) change over time. You can help us improve healthcare in BC.

For more details:

Please email vecstudies@cfri.ca or call 604-875-2187 and leave a message that you are interested in the study "Vaccine Hesitancy in Middle Childhood."
